Joseph Pardo, Student Associate, Conservation Clinic, J. D. Cand., UF Levin College of Law
Josh Wilks, Grant Management Specialist, State, Tribal, and Local Plans & Grants, National Park Service
Jenny Wolfe, Historic Preservation Officer, City of St. Augustine

This project has been funded in part with a grant from the Florida Preservation Services Fund and the Thorne Southern Intervention Fund of the National Trust for Historic Preservation.
Florida’s cultural resources are vulnerable to natural disasters. Hazard mitigation planning can reduce the vulnerability of these resources. However, cultural resources are rarely considered in pre-disaster planning, and emergency management agencies and preservation stakeholders tend to coordinate only after a disaster occurs. In preparation is a guidebook to assist Florida communities with the integration of cultural resources into hazard mitigation planning. This workshop will present the team’s preliminary findings and recommendations and gather feedback from participants.

### DAY 1 - HALF DAY WORKSHOP AGENDA

### Tuesday, November 15, 2016, 7:00 p.m., Lewis Auditorium at Flagler College, 14 Granada Street

#### “A Living Time Machine: Cuba’s Remarkable Ocean Ecosystems and the Hope They Offer Florida and the World”

**Dr. David Guggenheim, President, Ocean Doctor and Director, Cuban Conservancy**

**“Hemingway in Havana” Mary Werner DeNadai, FAIA, Trustee Emerita of the National Trust for Historic Preservation**

**Educational Enrichment Program – FREE and Open to the Public**

Of all the places Ernest Hemingway had lived, worked and played, none had the attraction nor hold on him than his home for 22 years outside of Havana, Cuba. This was the place where he crafted some of his greatest works including *A Moveable Feast* and *Old Man and the Sea*. Since 2005, restoration of his beloved *Finca Vigia* (Overlook Farm) began to manifest itself with the unlikely alliance of Cubans and Americans.

Mary Werner DeNadai, FAIA, an American Historic Preservation Architect served on the professional team that advised on the restoration, preservation and conservation of the buildings, grounds, yacht *Pilar* and contents of Hemingway’s home.

### Wednesday, November 16, 2016, 9:00 a.m. - 5:00 p.m.

Historic properties play a major role in many communities as the foundation for thriving neighborhoods, the backbone of business districts, the settings for heritage tourism experiences, the substance of educational programs, and as the centerpieces of cultural events.

This workshop is designed to address the unique way in which historic properties are maintained and rehabilitated within building, fire, life safety, coastal construction and accessibility codes. Participants will learn how design review is accomplished within a historic district and financial incentives that are available to owners of historic properties. Contemporary challenges such as sea level rise and adaptability strategies will be emphasized.

### DAY 2 - FULL DAY WORKSHOP AGENDA
